
Photon: PWM is available on D0, D1, D2, D3, A4, A5, WKP, RX, TX
Electron: PWM is available on D0, D1, D2, D3, B0, B1, B2, B3, A4, A5, WKP, RX, TX

Photon & Electron: PWM timer peripheral is duplicated on two pins (A5/D2) and (A4/D3) for 7 total independent PWM outputs
PWM may be used on A4 while D3 is used as a GPIO
